MORE NINJA MADNESS

**BONUS
COVERAGE
FOR SUB-
SCRIBERS
ONLY!**

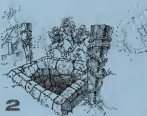

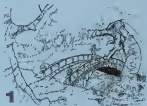

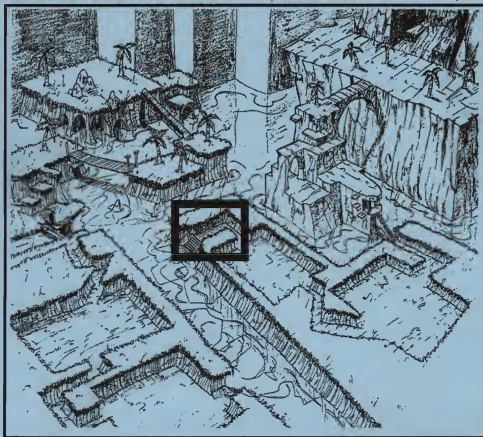

We were all jazzed up about the ton of great material we got on Core's *Ninja*, but we simply couldn't squeeze it all into our cover feature! So, we took the best pieces that didn't make it in and put them here, so that you guys, our most loyal readers, could

get the full scoop. It's our little way of saying 'thanks' for your invaluable support!

These illustrations were taken from the designer's very own sketchbook, and hint at some very intriguing possibilities (just check out that giant dragon attack — now you know not to go near that bridge!). So, without further adieu, enjoy all the extra cool stuff!

LEVEL MAP

Check out how HUGE the worlds are (the square shows one full screen of action)!

Sketches

1 A Core artist plans out a nasty surprise attack at the bridge! 2 Caught! Is this the end of your Ninja adventure?

Ninja Magic

The actual 'ninja' in *Ninja* is ready for some serious action! Seen here are all the test animations for our hero in black. We can't wait to get down to some serious 'ninja-ing'!

HEY
GANG!

IT'S TIME FOR LEARNING FUN WITH YOUR
BIGGEST, BESTEST BUDDY...

DINOSAUR CHRIS!

Have you ever wondered what happened to the dinosaurs? Were they wiped out by a gigantic meteor from space, or did they just get too big for their own britches and eat themselves out of house and home? Since we know that this is just the kind of weighty ponderings that all videogame players indulge in when they're not gaming, we now present this interview with Dinosaur Chris, which first appeared in *Big Heavy Thoughts* magazine, under the title of 'Evolution - Just What The Hell Went Wrong?'.

1 Dinosaur Chris, fill us all in on the demise of the dinosaurs. Was it the result of a massive meteor colliding with the earth, or was it some other apocalyptic event?

SHH! I'M
STALKING MY
PREY. THE
MCDINO IS
VERY HARD
TO CATCH!

2 Or was it simply the fact that the ecology of the young planet Earth couldn't sustain large numbers of huge animals?

LOOK!
A HERD OF
FRYODONS!
CRISPY, GOLDEN
FRYODONS! MAN,
THIS IS GONNA
BE GREAT!

3 Hey, wait a minute. You're not a real dinosaur! You're just Chris Slate, wearing a cheesy dinosaur suit. Geez, what a ripoff! We're outa here!!!

SILENTLY,
THE PREDATOR
CREEPS UP
ON THE
UNSUSPECTING
DEEP FRYER...
